## **CREW MEDICAL MANAGEMENT**

HudsonTactix's crew medical program provides Clients with a straightforward approach to obtaining crew medical care in U.S. Ports on a cost-effective and efficient basis. This is a non-emergency program that provides the next best level of care possible at a reasonable cost. Appointments at occupational health clinics and doctor's offices will be used to avoid expensive hospital and emergency room visits. Our goal is to have the crew member returned to the vessel if medically cleared.

Clients who utilize this program see savings in both the short and long term. Treatment is being managed from the onset, and questionable procedures or tests are eliminated. We utilize providers that are familiar with the shipping industry and deliver prompt medical attention.

## **WHY CHOOSE OUR SERVICES**

TREATMENT IS BEING MANAGED  
FROM THE ONSET
